2. STUDENT SUPPORT, SERVICES AND PROGRESSION

10. Remedial classes/Bridge course: %age of students benefitted: 25.94%

Remedial classes and bridge courses are essential components of our college's teaching schedule. Each department prepares an annual calendar, commencing with remedial classes for first-year students to address learning gaps and foundation weaknesses. Additional remedial sessions are conducted after syllabus completion and during preparation for annual exams to reinforce key concepts and clarify doubts. Bridge courses, tailored to fill specific skill gaps, focus on developing essential skills like communication, critical thinking, and problem-solving. These initiatives aim to bridge knowledge gaps, enhance student confidence, improve academic performance, and foster a supportive learning environment, ultimately promoting holistic student development and employability prospects. Notably, 100% of first-year students benefit from the bridge course, while remedial classes are open to all students, particularly slow learners. A sample of students' attendance is provided below for reference.
