5.3. Social Impact of Extension Activities:

I. Issues related to sanitation and water was resolved by the involvement of NSS volunteers.

The NSS units of the college go on a yearly basis to their adopted Gram panchayat Sain ki Sair which comprises of various villages like Chabbah, Thalinga Lahan etc. NSS volunteers conducted the yearly based survey to find out the changes experienced by the people compared to last year in terms of the challenges related to access to basic amenities. This year, the Up – Pradhan of the panchayat Mr. Satendra Thakur told the volunteers that due to their advocacy last year on the two major issues in these villages related to sanitation and availability of water was done by the NSS volunteers, by taking these issues to the media and government authorities, this year various new development projects had been initiated in the panchayat. The panchayat is now Nirmal panchayat as toilets have been constructed for all the houses and secondly, Har Ghar Jal scheme under Jal Jeevan Mission has also been successfully implemented. Secondly, this year volunteers also focused on meeting with the local leaders who play a key role in strengthening the administration of the area. Smt. Rekha Devi, Pradhan of the panchayat met with the volunteers, discussing local issues concerning the area and gave a lecture advocating female participation in administration as well as the important role of the youth in development matters.

(The survey was conducted by NSS volunteers of Dr. Yashwant Singh Parmar Government Post Graduate College Nahan, under the leadership of Programme Officers Dr. Pankaj Chandak and Prof. Lakshita. The survey took place in February 2024, guided by Prof. Devendra, Assistant Professor of Geography, and aimed to collect comprehensive socio-economic and educational data about the village.)

Introduction:

The socio-economic survey of Sain Ki Sher village, Himachal Pradesh, was part of the ongoing efforts under the Unnat Bharat Abhiyan. It involved the participation of NSS volunteers who worked closely with local families to understand their living conditions, economic activities, social structure, and educational status. **This was a follow-up survey to one conducted in February 2023, which had provided valuable insights into the village's infrastructural and social issues.** A socio-economic and educational survey was conducted in the village of Sain Ki Sher, Himachal Pradesh. The survey aimed to gather detailed information about the population, economic activities, animal husbandry, and social structure of the households. The following report highlights key findings from the survey, which can help in understanding the village's demographic and economic characteristics.

Key Findings from the 2023 Survey:

डा. वाईएस परमार स्नातकोत्तर महाविद्यालय नाहन के सतत दिवसीय विशेष आवासीय राष्ट्रीय सेवा योजना के शिबिर में शनिवार को स्वयंसेवियों ने एड्याप्ट किया गए दो गांवों में सर्वे कार्य किया। महाविद्यालय के 60 स्वयंसेवियों के दल ने इस दौरान 12-12 के दल में सैन की शेर व चंबाई पंचायतों में सामाजिक विज्ञान विषय की प्रोफेसर लक्षिता टाकुर के नेतृत्व में आर्थिक व सामाजिक सर्वे किया। एनएसएस के कार्यक्रम अधिकारी प्रोफेसर पंकज खंडक ने बताया कि इस दौरान गांव के उपप्रधान सर्वेद सिंह व सोमदत भी मौजूद रहे। उन्होंने बताया कि सरकार की योजनाओं का शरणागत पर किस तरह से उतर रही है का सर्वे स्वयंसेवकों द्वारा किया गया, जिसमें निर्मल घोषित ग्राम पंचायत सैन की शेर में पाया गया है कि अभी भी चार से पांच परिवार के पास निजी शौचालय

नहीं है। वहां यह परिवार राजवैज्ञानिक शौचालयों का प्रयोग कर रहे हैं। वहीं मुक्ति पंचायत निर्मल घोषित हो चुकी है तो वहां शौचालय निर्माण इत्यादि के लिए भी सरकारी कंक नहीं मिल सकता है। वहीं यह भी सर्वे के दौरान पाया गया है कि पंचायत के लोग पेयजल को अभी भी खजुर से आपूर्ति कर रहे हैं। वहीं सरकार की ओर से पेयजल योजना का लाभ लोगों को नहीं मिल पा रहा है। एनएसएस कार्यक्रम अधिकारी प्रोफेसर पंकज खंडक ने बताया कि एनएसएस के सतत दिवसीय आवासीय शिबिर में महाविद्यालय के 80 छात्र-छात्राएं विशेष सेवा अभियान में हिस्सा ले रहे हैं। जिसके तहत नाहन क्षेत्र के अठारह किलोमीटर के दायरे के पांच गांवों को एड्याप्ट कर वहां पर सेवा अभियान को चलाया गया है। वहीं सांस्कृतिक गतिविधियों में सांस्कृतिक कार्यक्रम का आयोजन किया जा रहा है।

In the February 2023 survey, Sain Ki Sher was documented as an Open Defecation Free (ODF) Panchayat. However, the survey revealed a significant gap—5 households were found to lack toilet facilities. This issue came to light due to the separation of joint families, which had not been reflected in official records. When these findings were conveyed to the Gram Panchayat and district authorities through media channels, the matter was investigated, and the affected households were subsequently provided with toilet facilities.

2024 Survey Overview:

In February 2024, another detailed survey was carried out with the help of NSS volunteers. The focus of this survey was to reassess the improvements made since the last year, particularly regarding sanitation facilities, and to gather updated socio-economic data.

The dataset appears to contain survey information about families in the village of Sain Ki Sher, Himachal Pradesh. The columns represent different aspects such as family details, gender distribution, number of children, ownership of animals, occupation, annual income, religion, and caste.

1. Family Information:

- Family Number, Number of Men, Women, and Children in the family.

2. Animals Owned:

- Information about cows, bulls, goats, and other animals.

3. Economic Information:

- Occupation and Annual Income.

4. Social and Religious Information:

- Religion and Caste.

A. Population Structure:

The village consists of multiple families, with an average family size of 4 to 5 members. Both men and women are equally represented in the population, indicating balanced gender distribution. The number of children per household varies between 1 to 3.

B. Livestock Ownership:

Animal husbandry is a vital part of the village economy. Most households own cows, while a smaller percentage of households also keep bulls and goats. Ownership of other animals was reported in a few cases. This suggests that dairy farming plays a significant role in the village's livelihood.

C. Economic Activities:

The survey indicates diverse sources of income among the families. Occupations range from farming to employment in local construction departments. Annual income levels vary significantly, with some households earning as much as ₹13,00,000, while others have an annual income as low as ₹50,000. The disparity in income highlights varying economic conditions among families.

D. Social and Religious Composition:

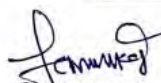

The majority of the population follows the Hindu religion. Caste composition includes a mix of general and scheduled caste (SC) families. This diversity in social structure is typical of rural villages in Himachal Pradesh, where traditional occupations and social divisions continue to influence community life.

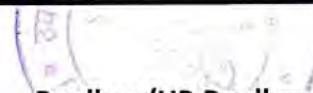

Conclusion:

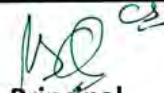

The village of Sain Ki Sher reflects a traditional Himachali rural structure, where agriculture, livestock rearing, and government employment contribute to the economy. The religious and social composition of the village showcases a predominantly Hindu community with a mix of castes. The survey data provides valuable insights that can guide development initiatives focused on improving economic opportunities and promoting educational growth in the village.

The socio-economic survey of Sain Ki Sher has highlighted the village's progress in sanitation, economic activities, and education. The efforts of NSS volunteers, along with the guidance of Dr. Pankaj Chandak, Prof. Lakshita, and Prof. Devendra, have helped bring attention to critical issues, such as sanitation gaps. The successful provision of toilet facilities to households identified in the previous survey exemplifies the impact that such initiatives can have on rural development.
